Step into Our Sanctuary

Located in beautiful Rock, our interiors are inspired by the Cornish coast. Expect natural textures and warming tones, a calm environment where everything has been considered.

Designed to soothe the senses and calm the mind, our interiors are all about softness and embracing the wellness experience.

Softness and stillness are the order of the day, slowing your mind and encouraging you to switch off and carve some space for self-care.

We would love to welcome you.

Our Treatments

Our treatments are designed to relax and rejuvenate, offering an immersive wellness experience. Combining luxurious surroundings, advanced products and state of the art technology, our sanctuary by the sea provides a wellbeing retreat with therapeutic rituals to calm and revive, restoring balance and regaining your glow.

Our holistic approach is about creating harmony between your mind, body and skin, redefining the modern spa experience and bridging the gap between the soulful and the medical — relaxation that gets results.

It all begins with Balance.

A woman is lying on a massage table, receiving a facial treatment. A therapist is applying a product to her face. The setting is a spa with a white chair, a small table with a vase of flowers, and a candle.
